

**14th European Championship in Float Fishing  
the river Morava, town of Uherské Hradiště, the Czech Republic  
28th - 29th June 2008**

To: all members of F.I.P.S.e.d.

Uherské Hradiště 28th August 2007

Dear Mr. President,

Both national unions of fishermen in the CR are pleased to invite your national representative team together with the realization team and the accompaniment to the 14th European Championship in Float Fishing, which will take place on the river MORAVA, in the town of Uherské Hradiště, in the Czech Republic, in the term from 28th to 29th June 2008.

Besides the indisputable quality of your national representative team there is another good point to take part, and that is advantageous distance to the place of the championship.

We hope you will be pleased by the effort of the organisers to make such conditions for the competitors that conform to the high standards of this top sporting action.

We look forward to meeting your representative team as well the accompaniment and believe that the championship will bring you not only fishing experience that is worth coming back.

Ing. Rudolf Milerski  
Chairman of MUF

Milan Čaja  
Chairman of MO MUF Uherské Hradiště

F.I.P.S.e.d. has accorded certification and given consent to the organization of the 14th European Championship in Float Fishing on the river Morava, in the place of the flow in Uherské Hradiště.

### Location:

Uherské Hradiště is a significant centre of south-east Moravia, and it is situated in the very south-eastern part of the republic, near the borders with the Slovak Republic. It is located in a lowland bounded by the Chřiby Hills on the western part and the peaks of the White Carpatians on the east. The river Morava has a typical lowland character in the place of the championship realization with an undisturbed flow in the bream fishing area in an altered stream, with enough place for the competitors. The width of the stream is within the limits of 50-60m and all the racing sectors for the championship are situated on the left bank of the river Morava, down the stream.

The depth of the bottom of the river on the area is between 3,0 and 4,0m and the flow capacity in the term of the championship reaches from 7,2 to 9,6 m<sup>3</sup>/s according to the statistics. The bed is created mainly by gravel or sand, only at the banks of the river you can find some mud. The bank sides are inlaid by quarry rock covered by soil at the place of touch with the water-level. The air part is also broken and it is grassland up to the slope crest, without trees or bushes.

The racing sectors are situated in easy bends of the river and the distance between the competitors in the sector A and the sector E is almost 5km. The racing area begins above the river weir in Staré Město and goes on along the forest park to the railway bridge across the river Morava. The sectors A, B and C will be prepared there. The sector D will be about 500m above the road bridge, up the river stream and the sector E will be ready further in 300m.

The location of all the sectors on the racing area enables using cars and parking of passenger cars as well as trucks of the middle category in all kinds of weather.

All the racing sectors are continuous and undivided. **All the racing area as described above has been accredited and it complies with the international rules of F.I.P.S.e.d.**

During last seven years many international and national competitions have taken place in the area suggested for the European Championship in Float Fishing 2008.

Because the racing area is situated in the section of the river above the weir in Staré Město and below the weir at the village Spytihněv, it will be possible to control the flow and the water level of the river Morava in the time of the championship.

## Traffic availability of the place:

### By air:

- international airport in Prague - Ruzyně, beltway to the highway D1, direction to Brno. Behind Brno exit to Holubice - direction to Uherské Hradiště - the length of the route about 410km
- international airport Vienna - then by car, the route to the frontier crossing Mikulov (about 60km), then Břeclav and Uherské Hradiště - the length of the route by car cca 110km
- international airport in Bratislava - then by car on the highway D1 direction to Brno up to the town Břeclav, then road E 1/55 to Uherské Hradiště, the length of the route by car 220km
- it is possible to use alternative connection to the airport in Brno, then highway D1 and the road E1/50 to Uherské Hradiště, the length of the route about 70km
- for the owners of the private planes and for the transport by the charter flights it is possible to use the airport in Kunovice for 24hours a day, 7 days in a week, then by a taxi - 5km to the place of accommodation and the racing area.

### By car:

- direction from the west - from Brno on the road E1/50
- direction from the south from the highway D1 - turn to E1/55 to Břeclav, Strážnice, Veselí nad Moravou, and Uherské Hradiště
- direction from the north - on E1/50 Ostrava, Hranice, Přerov, Napajedla, Uherské Hradiště
- direction from the east from the Slovak Republic - through the frontier crossing Strání-Květná or Starý Hrozenkov and then on the road 1/50 to Uherské Hradiště

### Fish occurrence and species:

The racing area has been chosen by the organizer on the lower course of the river Morava in Uherské Hradiště. All the area is situated in the fishery in the administration of the Moravian Union of Fishermen, local organization Uherské Hradiště, in the total length of 9km. The part of the river in the racing area belongs to the bream fishing area with the complete kinds of fish stock occurrence for bream fishing area.

### Fish occurrence - very frequent

Silurus glanis, Cyprinus carpio, Barbus barbus, Abramis (Blicca) bjoerkna, Abramis brama, Alburnus alburnus, Rutilus rutilus, Leuciscus cephalus, Stizostedion lucioperca

### Fish occurrence - frequent

Perca fluviatilis, Scardinius erythrophthalmus, Aspius aspius, Carassius auratus (gibelio), Chondrostoma nasus, Tinca tinca, Ctenopharyngodon idella

### Fish occurrence - rare

Anguilla anguilla, Lota lota, Esox lucius, Vimba vimba, Leuciscus idus, Gobio gobio, Carassius carassius

### Recommended fishing technics:

We recommend to use all kinds of technics for float fishing, according to the actual conditions at the racing field. First of all we prefer pole fishing and fishing with running line.

### Important information:

1. The racing area is situated about 5km on the stream of the river Morava in the town agglomeration of Uherské Hradiště. **With advice of F.I.P.S. e.d. the organisers recommend the national teams to bring up the second captain so that the southern as well as the northern section of the racing area could have its captain due to the communication in the team without any problems.** There will be no need to travel through the town. It is necessary to have a transmitting station with the range over 5km.
2. For the national representative unions that will come to the championship in a mobile home the transport from and to the place of accommodation, to and from the racing area will be provided by the organisers by the middle category commercial cars (i.e. WV Transporter, Peugeot boxer etc.) at the organisers' expense. **This kind of transport at the European Championship must be applied for at the binding application form by the national federation.**
3. **It will be forbidden to catch fish on the river Morava from 9th to Monday 23rd June 2008.**
4. The sectors for 4 days of the official training will be drawn by a lot according to the rules of F.I.P.S.e.d. on Sunday 22nd June 2008 at 7.30 p.m. in the assembly hall of the university, building NO 2, at the place of accommodation in Uherské Hradiště.
5. Compulsory training will take place on the racing area on Friday 27th June 2008.
6. In the course of the training intensive baiting is allowed always during the first 5 minutes of each training. The start and the end of this limited period is given by an acoustic signal by the organisers.
7. Bait restriction - in the course of the race is baiting restricted for max. 17 litres. The baits can be in max. amount 2,5 litres jokers included.
8. Maximum length of the fishing rode is restricted to 13,0 m.
9. Each competitor of the European Championship in Float Fishing in Uherské Hradiště takes part in trainings as well as competition itself at his/her own risk. The competitor and his companion lies under the obligation of the rules given by the organisers, to catch fish only at the designated places and not to expose himself/herself or the other members of the team to a useless risk or danger.
10. **Nations must bring their own flag and national anthem.**

## Accommodation

The organisers have ensured accommodation for the competitors and their companions in the new premises of university centre in Uherské Hradiště, about 1-3km far from the racing area. We offer first of all double rooms (59) and 3-bed-rooms(29) with a bathroom, an entrance hall and a kitchen. There is a limited number of single rooms with a bathroom (20) for the additional charge of 30Euro/day. Moreover newly reconstructed buildings offer common accommodation for the whole team in 3 rooms with own entrance to the entrance hall where you can find also complete welfare facilities and a kitchen.

The dining room in the place of accommodation provides self-service boarding. During the championship the participants will get half-board. On the basis of the requirement specified on the application form the dining room is ready to provide full board.
